

A sleek, dark grey, rectangular digital receiver with a textured surface. It features a small blue digital display showing '90' and 'FM'. Below the display are several control buttons and a large black volume knob. The device is placed on a light-colored wooden surface next to a string of wooden prayer beads (tasbeeh).

Time4Salaah Digital Receiver Designed by CodeForm3D

Product Details

Time4Salaah is a low power true wireless digital receiver designed to keep you connected to your faith, no matter where you are in the world. With a simple WiFi or mobile data connection, you can instantly access live audio from **over 400 mosques across 80 UK cities**, enjoying crystal-clear sound and a seamless listening experience.

Beyond live mosque broadcasts, Time4Salaah provides a rich selection of spiritual content available **24/7**. Immerse yourself in continuous Quran recitation through the dedicated **Quran Radio** channel, or deepen your knowledge with round-the-clock **Tafseer** available in both Arabic and English, carefully curated to support learning, reflection, and spiritual growth.

Compact, reliable and beautifully simple to use, Time4Salaah brings the serene atmosphere of the mosque directly into your home, workplace, or wherever life takes you.
